this teacher guide illustrates how to sustain successful implementation of the common core state standards for mathematics grades 6 8 discover what students should learn and how they should learn it at each grade level comprehensive research affirmed analysis tools and strategies will help you and your collaborative team develop and assess student demonstrations of deep conceptual understanding and procedural fluency

get to the core of your students understanding of math back by popular demand cheryl tobey and new coauthor emily fagan bring you 25 entirely new formative assessment probes this time specifically for grades k 2 and directly aligned to the common core thousands of teachers have already discovered that using probes may be the single best way to identify students understandings and misunderstandings of key math concepts and then follow up with the most appropriate instructional choices organized by strand the probes will enable you to objectively evaluate each child s prior basic numeracy and math knowledge systematically address common mistakes and obstacles before they become long term problems help students integrate new mathematical ideas and immediately pinpoint areas of struggle plan targeted instruction that builds on students current understandings while addressing their identified difficulties with the help of these probes k 2 teachers will eliminate once and for all the perception some kids just aren t good at math and put all students on the path of lifelong proficiency tobey and fagan provide both a roadmap and gps for navigating the common core standards for mathematics in a time when teachers are asked to do more and more this is a fabulous resource to guide instruction that will meet the needs of individual students i was so impressed with the content i found myself taking copious notes as i read roxie r ahlbrecht math intervention specialist lowell mst sioux falls sd these probes get to the heart of the common core standards the teacher notes provide valuable guidance on interpreting student results and using the information to inform instruction donna boucher k 5 math instructional coach morton ranch elementary school katy isd katy tx

math is everywhere has 365 math activities you can do with your kids right now you could watch bugs listen to music or ride a bike you ll find ideas to entertain with math while waiting for a dentist appointment you can make flubber or a real dirt cake that you can eat you will not find any worksheets or artificial word problems but your child probably will want to create some so beware you won t need to buy a thing unless it s the groceries you and your child will use to make dinner math is everywhere is a book for anyone who wants to answer the question when am i ever going to use this math

because positive changes in a school's capacity to educate all its students are not automatic the California Department of Education has launched an educational reform model embodied in a comprehensive school improvement plan. The model is based on student-centered educational standards quality criteria that direct the four SIP processes of planning implementation self study and program quality review these processes were developed to engage the entire school community in improvement activities to benefit all student populations this four part document has been designed to help members of a quality review team conduct a review of middle school programs part i describes how the quality criteria can be used for planning and implementing school improvement initiatives at a school site part ii is the guide for conducting a school's self study part iii describes program quality review procedures the application of quality criteria to the school's curriculum and instructional program and the means for developing suggestions in the report of findings part iv details the quality criteria for middle grades including eight curricular and five schoolwide criteria curricular criteria reflect the major themes of state curriculum handbooks frameworks and curriculum guides schoolwide criteria emphasizing students in transition are derived from various school improvement publications and the judgment of middle grades educational practitioners mlh
