human services management occurs in nonprofit governmental and for profit sectors and involves a wide variety of organizational structures these diverse conditions shape the effort to produce and project services that directly affect the quality of life of individuals families and communities through social welfare health and mental health criminal justice and educational services david austin begins with an examination of the historical development and distinctive characteristics of human service organizations the variety of organizational and program structures at play and the connection of individual service organizations with service delivery networks he then examines of the roles and responsibilities of key stakeholder constituencies including service users service personnel especially service professionals funders executives and policy boards the final two chapters discuss two organizational processes accountability for effectiveness and dealing with organizational changes

academic health centers are currently facing enormous changes that will impact their roles in education research and patient care the aging and diversity of the population will create new health care needs and demands while rapid advances in technology will fundamentally alter the health care systems capabilities pressures on health care costs growth of the uninsured and evidence of quality problems in health care will create a challenging environment that demands change academic health centers explores how ahcs will need to consider how to redirect each of their roles so they are able to meet the burgeoning challenges of health care and improve the health of the people they serve the methods and approaches used in preparing health professionals the relationship among the variety of their research programs and the design of clinical care will all need examination if they are to meet the changing demands of the coming decades policymakers will need to create incentives to support innovation and change in ahcs in response ahcs will need to increase the level of coordination and integration across their roles and the individual organizations that comprise the ahc if they are to successfully undertake the types of changes needed academic health centers lays out a strategy to start a continuing and long term process of change

this book highlights the use of an outcome oriented view of performance to frame and assess the desirability of the effects produced by adopted policies so to allow governments not only to consider effects in the short but also the long run furthermore it does not only focus on policy from the perspective of a single unit or institution but also under an inter institutional viewpoint this book features theoretical and empirical research on how public organizations have evolved their performance management

systems toward outcome measures that may allow one to better deal with wicked problems today wicked problems characterize most of governmental planning involving social issues these are complex policy problems underlying high risk and uncertainty and a high interdependency among variables affecting them such problems cannot be clustered within the boundaries of a single organization or referred to specific administrative levels or ministries they are characterized by dynamic complexity involving multi level multi actor and multi sectoral challenges in the last decade a number of countries have started to develop new approaches that may enable to improve cohesion to effectively deal with wicked problems the chapters in this book showcase these approaches which encourage the adoption of more flexible and pervasive governmental systems to overcome such complex problems outcome based performance management in the public sector is divided into five parts part 1 aims at shedding light on problems and issues implied in the design and implementation of outcome based performance management systems in the public sector then part 2 illustrates the experiences problems and evolving trends in three different countries scotland usa and italy towards the adoption of outcome based performance management systems in the public sector such analyses are conducted at both the national and local government levels the third part of the book frames how outcome based performance management can enhance public governance and inter institutional coordination part 4 deals with the illustration of challenges and results from different public sector domains finally the book concludes in part 5 as it examines innovative methods and tools that may support decision makers in dealing with the challenges of outcome based performance management in the public sector though the book is specifically focused on a research target it will also be useful to practitioners and master students in public administration

stephen shortell one the country s leading health care management authorities and his team of experts use the most current data available to update their classic book remaking health care in america this expanded second edition includes a clear conceptual framework for health care leaders who must develop more integrative systems of care to meet the challenge of the evolving health care industry the book also provides practical suggestions and myriad recommendations for developing cost effective delivery systems across the united states

this book examines the legal structures within which religious organizations conduct their activities the legal structures of religious organizations encompass not only their corporate organizations but the many ways employment property ownership

decisions regarding forms of ministry and participation in society define a particular institution the authors from a variety of practicing religious and scholarly backgrounds provide a range of perspectives both practical and theoretical on these issues the book fills a void in the current resources providing a detailed description of policies identity and the effect of legal rules on church structures contributors include patricia carlson angela carmella mark chopko carl esbeck patty gerstenblith h reese hansen donald hermann bernadette kenny douglas laycock william marshall martin marty john massad patrick schiltz elizabeth sewell and rhys williams

written by a mix of established and rising stars in school politics policy law finance and reform this comprehensive handbook provides a three part framework that helps organize this relatively new and loosely organized field of study a central theme running through the book is how to harness politics to school equity and improvement key features include thematic discussions detailed discussions of key topics in educational politics are organized by themes and competing perspectives the overarching themes are 1 the goals of the u s political system justice equity opportunity efficiency and choice 2 the means and resources for reaching these goals and 3 the political behaviors and compromises that seek to mitigate ideological differences and conflicts of interest research oriented in addition to summarizing the latest research connected to key topics each chapter exemplifies and reports on the methods and techniques for further exploration of these topics reform oriented throughout the book and especially in the summarizing chapter authors provide suggestions for improving the political behaviors of key educational groups and individuals unions superintendents politicians school boards teachers and parents

the objectives of managed care cost containment efficiency and uniformity seem to be at odds with the individualized habilitation goals of persons with disabilities person centered planning and self determination require individuality and flexibility not traditional strengths of managed care plans but like it or not managed care is here to stay how the field of disabilities meets the challenge of managed health care in the beginning of the next century will determine to a large extent how well it meets the unique and complex needs of persons with disabilities dale mitchell traces the advent of managed care in the u s from both the acute and long term perspective analyzes the forces at work in the government and health care industry points to the likely future outcomes and suggests ways to prepare for and make the most of the far reaching and significant changes to come for the field of developmental disabilities managed care developmental disabilities is a must read for anyone concerned with the future of

health care for persons with disabilities as well as the quality and cost of that care back cover
