the future of online religion is now operating online allows long established
religious communities to reach the unaffiliated like never before more
startling is the ease by which anyone with internet access can create new
circles of faith electronic shrines and kitschy personal altars express
adoration for living celebrities just as they honor the memory of long departed
martyrs in give me that online religion online religion expert brenda brasher
braves a new world in which cyber concepts and technologies challenge
conventional ideas about the human condition all the while attempting to
realize age old religious ideals of transcendence and eternal life as the
internet continues its rapid absorption of culture give me that online religion
offers pause for thought about spirituality in the cyber age religion s move to
the online world does not mean technology s triumph over faith rather
brasher argues it assures religion s place in the wired universe along with

commerce and communications meeting the spiritual demands of internet generations to come

this is the first book to bring together many aspects of the interplay between religion media and culture from around the world in a single comprehensive study leading international scholars provide the most up to date findings in their fields and in a readable and accessible way some of the topics covered include religion in the media age popular broadcasting communication theology popular piety film and religion myth and ritual in cyberspace music and religion communication ethics and the nature of truth in media saturated cultures the result is not only a wide ranging resource for scholars and students but also a unique introduction to this increasingly important phenomenon of modern life

digital religion offers a critical and systematic survey of the study of religion and new media it covers religious engagement with a wide range of new media forms and highlights examples of new media engagement in all five of the major world religions from cell phones and video games to blogs and second life the book provides a detailed review of major topics includes a series of case studies to illustrate and elucidate the thematic explorations considers the theoretical ethical and theological issues raised drawing together the work of experts from key disciplinary perspectives digital religion is invaluable for students wanting to develop a deeper understanding of the field

first published in 2004 routledge is an imprint of taylor francis an informa company

this book offers a critical and systematic survey of the study of religion and digital media it covers religious engagement with a wide range of digital media forms and highlights examples of new media engagement in all five of the major world religions from mobile apps and video games to virtual reality and social media the book provides a detailed review of major topics including ritual identity community authority and embodiment includes a series of engaging case studies to illustrate and elucidate the thematic explorations considers the theoretical ethical and theological issues raised this unique volume draws together the work of experts from key disciplinary perspectives and is the go to volume for students and scholars wanting to develop a deeper understanding of the subject area thoroughly updated throughout with new case studies and in depth analysis of recent scholarship and developments this new edition provides a comprehensive overview of this fast paced constantly developing and fascinating field

in the twenty first century religious life is increasingly moving from churches mosques and temples onto the internet today anyone can go online and seek a new form of religious expression without ever encountering a physical place of worship or an ordained teacher or priest the digital age offers virtual worship cyber prayers and talk boards for all of the major world faiths as well

as for pagan organisations and new religious movements it also abounds with misinformation religious bigotry and information terrorism scholars of religion need to understand the emerging forum that the web offers to religion and the kinds of religious and social interaction that it enables religion and cyberspace explores how religious individuals and groups are responding to the opportunities and challenges that cyberspace brings it asks how religious experience is generated and enacted online and how faith is shaped by factors such as limitless choice lack of religious authority and the conflict between recognised and non recognised forms of worship combining case studies with the latest theory its twelve chapters examine topics including the history of online worship virtuality versus reality in cyberspace religious conflict in digital contexts and the construction of religious identity online focusing on key themes in this groundbreaking area it is an ideal introduction to the fascinating questions that religion on the internet presents

this masterful six volume encyclopedia provides comprehensive global coverage of religion emphasizing larger religious communities without neglecting the world's smaller religious outposts religions of the world second edition a comprehensive encyclopedia of beliefs and practices is an extraordinary work bringing together the scholarship of some 225 experts from around the globe the encyclopedia's six volumes offer entries on every country of the world with particular emphasis on the larger nations as well as indonesia and the latin american countries that are traditionally given little attention in english language reference works entries include profiles on religion in the world's smallest countries the vatican and san marino profiles on religion in recently established or disputed countries kosovo and nagorno karabakh as well as profiles on religion in some of the world's most remote places antarctica and easter island religions of the world is unique in that it is based in religion on the ground tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world its major geographical sites and its major celebrations unlike other works the encyclopedia also covers the world of religious unbelief as expressed in atheism humanism and other traditions

provides a contemporary view of the intertwined relationship of communication and religion the handbook of religion and communication presents a detailed investigation of the complex interaction between media and religion offering diverse perspectives on how both traditional and new media sources continue to impact religious belief and practice across multiple faiths around the globe contributions from leading international scholars address key themes such as the changing role of religious authority in the digital age the role of media in cultural shifts away from religious institutions and the ways modern technologies have transformed how religion is communicated and portrayed divided into five parts the handbook opens with a state of the art overview of the subject's intellectual landscape introducing the historical background theoretical foundations and major academic

approaches to communication media and religion subsequent sections focus on institutional and functional perspectives theological and cultural approaches and new approaches in digital technologies the essays provide insight into a wide range of topics including religious use of media religious identity audience gratification religious broadcasting religious content in entertainment films and religion news reporting about religion race and gender the sex religion matrix religious crisis communication public relations and advertising televangelism pastoral ministry death and the media online religion future directions in religious communication and more explores the increasing role of media in creating religious identity and communicating religious experience discusses the development and evolution of the communication practices of various religious bodies covers all major media sources including radio television film press digital online content and social media platforms presents key empirical research real world case studies and illustrative examples throughout encompasses a variety of perspectives including individual and institutional actors academic and theoretical areas and different forms of communication media explores media and religion in judeo christian traditions islam buddhism hinduism religions of africa atheism and others the handbook of religion and communication is an essential resource for scholars academic researchers practical theologians seminarians mass communication researchers and undergraduate and graduate students taking courses on media and religion

religion in sociological perspective is an introduction to the sociology of religion core text designed to present and illustrate the basic theories sociologists use to understand the social dimensions of religion first and foremost the authors seek to help students understand the perspective from which sociologists view religion by the time students have finished this book they should understand the central theories and methods of research in the sociology of religion and they should have an idea of how to apply these analytical tools to new groups they encounter the goal of this text is to be illustrative rather than all encompassing the fifth edition continues to draw on a wide range of perspectives the text aims to help students recognize the contributions of various theoretical perspectives and the blind spots of each theory conflict functional social constructionist and rational choice paradigms are used throughout the text various middle range theories are also utilized to explore specific processes despite the effort to introduce many perspectives however we have made an effort to enhance integration of the text by using one framework throughout the book the open systems model
