dr poncelet and dr hirsh eagerly developed an encyclopedic chapter for the 4th edition of the guidebook for clerkship directors and it seemed logical and proper to grow that chapter which had been truncated for the guidebook into this book they have assembled the leading international experts in the field of the medical school longitudinal integrated curriculum who in turn have generated what we are sure will be considered the ultimate resource for these experiences this book fills a significant void in the medical education literature

this third edition of juanne nancarrow clarke s thorough and essential study of the sociology of health illness and medicine has been expanded and completely revised to include recent research findings and statistical data on how we try to stay healthy and how we respond to illness on howwe live and how we die new chapters on nursing and midwifery and on complementary and alternative medicine have been written for this edition which includes over 100 tables and figures as well as numerous vignettes on such topics as medical technologies pioneers in medicine epidemics environmental disasters and the history of medicine canada s health care system has been largely defined by physicians hospital administrators and government bureaucrats it has been a boon to many but has meant the entrenchment of allopathic medicine over such alternatives as chiropractic and naturopathy as canada s population ages and chronicillnesses proliferate interventionist and pharmaceutical solutions to health problems become less relevant and extremely costly allopathic interventions such as surgery and chemotherapy may increase quantity of life at the expense of its quality clarke uses four different sociological perspectives structural functional conflict symbolic interactionist and feminist to examine occupational diseases environmental challenges the inequities of age gender class race and ethnicity the experience of getting sick and going to the doctor and the extensive and profit motivated impact of the pharmaceutical and medical device industries health illness and medicine in canada also considers the canadian health care system in historical and international context

this is a 30 page guide about everything you need to consider to get into a canadian medical school applying to medicine can be a

long tedious process some guidance at the outset can go a long way and this book will keep you on track there are many things to consider and things you must consider even 3 4 years before you even apply so this is a great investment
