the ritual of eating and drinking together is one of the most important christian events often called eucharist lord s supper or communion this sacrament is about the presence of christ transforming not only those who participate in it but also the world in this book the author engages this christian liturgical act with movements of people around our globalized world and checks the sacramental borders of hospitality the author calls our attention to the sacramental

practices of reformed churches and from this liturgical practice challenges christian churches to expand the borders of hospitality engaging several critical lenses around the notion of the sacrament namely greco roman meals calvin s theology and feminist and latin american theologies the author challenges theological and liturgical understandings of the eucharist he fosters an interreligious dialogue around the table and ends up using ritual theory to expand the circles of traditions vocabularies and practices around the sacrament proposing a borderless border eucharistic hospitality the author encourages readers to ask who and where we are when we get together to eat and drink and how this liturgical act around jesus table meal can transform the lives of the poor our communities societies and the world

what kind of church arises from the lord s table doctrine customs culture and history divide the churches christians do not share a common table can a divided and injured church celebrate the eucharist the sacrament of christian communion these are a few of the questions addressed in this study of the ecclesiology of communion the borderless church of the infinite love of christ exists today the divided churches need only receive the communion of god as their innermost nature at the borderless table of god s kingdom book jacket title summary field provided by blackwell north america inc all rights reserved

computational fluid dynamics cfd is now an essential and effective tool used in the design of all types of turbomachine and this topic constitutes the main theme of this book with over 50 years of experience in the field of aerodynamics professor naixing chen has developed a wide range of numerical methods covering almost the entire spectrum of turbomachinery applications moreover he has also made significant contributions to practical experiments and real life designs the book focuses on rigorous mathematical derivation of the equations governing flow and detailed descriptions of the numerical methods used to solve the equations numerous applications of the methods to different types of turbomachine are given and in many cases the numerical results are compared to experimental measurements these comparisons illustrate the strengths and weaknesses of the methods a useful guide for readers lessons for the design of improved blading are also indicated after many applications presents real world perspective to the past present and future concern in turbomachinery covers direct and inverse solutions with theoretical and practical aspects demonstrates huge application background in china supplementary instructional materials are available on the companion website aerothermodynamics of turbomachinery analysis and design is ideal for senior undergraduates and graduates studying in the fields of mechanics energy and power and aerospace engineering design engineers in the business of manufacturing compressors steam and gas turbines and research engineers and scientists working in the areas of fluid mechanics aerodynamics and heat transfer supplementary lecture materials for instructors are available at wiley com go chenturbo

the landmark world council of churches convergence text the church towards a common vision 2012 which has the potential to become this generation s

baptism eucharist and ministry 1982 invites the churches to envision how their own distinctive visions of the church might have a place in the global church s imagination of the ecumenical future seeds of the church towards an ecumenical baptist ecclesiology is a collaborative effort by members of the baptist world alliance commission on baptist doctrine and christian unity to respond to this invitation this book contends that the distinctive baptist ecclesial vision is best embodied in twelve core practices of baptist churches and their interrelationship covenanting discerning gathering befriending proclaiming equipping baptizing discipling caring theologizing scattering and remembering seeds of the church opens a window on what is possible when baptists engage with people of other christian traditions in the exploration of the common heritage of people belonging to the one household of faith the global baptist theological voices represented in this volume offer it as a reading of an ecumenical text in a baptist key that paves the way for ecclesiological renewal among baptists and in the whole church to which they belong

in 2012 the episcopal diocese of south carolina declared its independence from the episcopal church it was the fifth of the 111 dioceses of the church to do so since 2007 a history of the episcopal church schism in south carolina is the sweeping story of how one diocese moved from the mainstream of the episcopal church to separate from the church it examines the underlying issues the immediate causes and the initiating events as well as the nature and results of the schism the book traces the escalating conflict between the diocese and the church that led up to the schism it also examines the legal war between the two post schism dioceses the majority in the independent diocese of south carolina and the minority in the episcopal church in south carolina this is the first scholarly history of a diocesan schism from the episcopal church it is extensively researched from original and secondary sources and documented in over 2 000 notes citing nearly 900 works this story stands as a cautionary tale of what happens in a major christian denomination when majority and minority factions increasingly differentiate themselves and what impact that can have for both parties
