this report is all about people and using computers to connect them and their healthcare information it is a report about how we get consumers and clinicians to use these tools how we pay for them and what we want the computers to do but computers are only a tool a means to an end we have focused this report on computers because they seem to be the best tool and maybe the only tool that will allow the nation to change the way healthcare works this report articulates a vision of an information connected healthcare system where consumers privacy is protected and their convenience facilitated where doctors and nurses have the information they need to efficiently deliver safe and effective care where our public health and homeland security can be protected while still guarding each individual s privacy the report recommends specific actions and broader policy objectives all with the goal of allowing healthcare to effectively use computers and information technology if followed the commission s recommendations will accelerate healthcare s transformation from foreword

this volume analyzes group purchasing organizations gpos and pharmacy benefit managers pbms in order to better understand the significant roles that these entities play in the healthcare supply chain it examines who they contract with on what terms and who they represent and answer to while charting their historical development the analysis reveals that the current roles of both players have historical roots that explain why they behave the way they do finally the book reviews the evidence base on the performance results of these two players this work fills a void in our understanding about two important and controversial players in the healthcare value chain both organizations are cloaked in secrecy partly by virtue of the private sector contracts they negotiate partly by virtue of the lack of academic attention both play potentially important roles in controlling healthcare costs albeit using contracting strategies and reimbursement mechanisms that arouse suspicion among stakeholders this timely text explicates how these organizations arose and evolved to shed more light on how they really operate

this text contains the core body of knowledge for case management practice as delineated by the case management society of america cmsa the largest professional organization of case managers the core curriculum provides a synthesis of case management evolution and presents essential elements concepts and vision for current and future case management practice this edition is significantly expanded to reflect the dynamic changes taking place in case management each chapter is organized in a consistent format that includes learning objectives introduction important terms and concepts key definitions and references

mitral valve prolapse mvp consisting of an abnormal protrusion of mitral leaflets into the left atrium is the main cause of severe mitral regurgitation and it often requires surgical or interventional correction it mainly represents a typical adult disease with an average prevalence in industrialized countries ranging from 2 to 8 but even the pediatric population may be affected showing specific features concerning both anatomy and treatment although its existence and clinical characteristics are known for several decades every aspect of this pathological condition is in continuous evolution being the subject of biologists cardiologists and surgeons active research the aim of the present research topic is to address the mvp entity in its completeness trying to describe all actual knowledge concerning molecular mechanisms different clinical presentations fibroelastic degeneration in elderly people or barlow disease in young patients diagnostic findings and tools mainly represented by echocardiography and nuclear magnetic resonance their specific application to newly developed transcatheter and minimally invasive treatments indications surgical management and interventional strategies for all these big chapters special attention will be addressed to show temporal knowledge evolution and new elements acquisition since the central message is that mvp is in flux and far from full comprehension
