this book provides a review of the bioregionalist theory in the field of spatial planning and design as a suitable approach to cope with the growing concerns about the negative effects of metropolization processes and the need for a sustainable transition the book starts out with a section on rethinking places for community life and discusses the reframing of regional governance and development as well as social justice in spatial planning it introduces the concept of the urban bioregion a pivotal concept that underpins balanced polycentric spatial patterns and supports self reliant and fair local development the second part of the book focuses on planning and particularly on the issues that arise from the circular recovery of the relation between city and agro ecosystems for integrated planning and resilience of settlements and discusses topics such as foodshed planning biophilic urbanism and the integration of rural development and spatial planning this volume sets out the reference framework for volume ii which deals with more specific and operational issues related to spatial policies and settlement design

global problems such as poverty climate change and economic crises constitute challenges that the global community can only face collectively it therefore seems indispensable to engage in an intercultural dialogue on alternative approaches to development that are ethically justifiable politically acceptable and ecologically sustainable for this reason the institute for social and development studies at the munich school of philosophy in cooperation with misereor the german catholic bishops organization for development cooperation invited academics from different continents to engage in such an intercultural dialogue under the notion of the global common good the contributors investigate normative ideals analyze obstacles that prevent their realization and indicate paths for transformation

in the decade between 1998 2008 spain became the main destination for ecuadorian migrants and madrid spain s capital became the city with the largest ecuadorian population outside of ecuador through a combination of ethnographic research and cultural analysis this book addresses the interconnections between spatial practices cultural production and definitions of citizenship in migration dynamics between ecuador and spain showing how ecuadorians are key actors in madrid s recent urban history looking at the city as form and content constitutive and constituting of ideological processes each chapter analyzes the spatial practices of madrid s ecuadorian residents through various forms the body the home public and

leisure spaces the city the nation and transnational circuits rather than addressing migrants as a general human type marked by displacement each chapter offers an illustration of how ecuadorian migrants forge transnational processes through their everyday lives in specific time and place and how these processes manifest culturally on both sides of the atlantic

los temas problemas y retos relativos al desarrollo exigen de interdisciplinarietà y abarcan bastante más que las escalas económica o financiera este libro presenta los más recientes resultados de la investigación de profesores e investigadores colombianos y latinoamericanos que vienen trabajando en una red activa con una finalidad específica buscar alternativas al desarrollo en verdad los modelos anteriores y vigentes de desarrollo no parecen ser suficientes para resolver dos problemas fundamentales cómo debemos vivir y cómo son o pueden ser nuestras relaciones con la naturaleza la antropología y la economía la filosofía y la arqueología la sociología y la historia confluyen en este libro poniendo de manifiesto la complejidad del desarrollo y el carácter inaplazable de sus alternativas un libro novedoso alternativo radical incluso con un alto rigor académico y científico

sacroeconomía analiza la historia del dinero desde las antiguas economías del obsequio hasta el capitalismo moderno revelando hasta qué punto el sistema monetario ha contribuido a la alienación la competencia y la escasez ha destruido el sentimiento de comunidad y ha obligado al crecimiento ilimitado estas tendencias han llegado a su extremo hoy en día sin embargo tras su derrumbe podríamos hallar una gran oportunidad para acometer la transición hacia un modo de ser más interconectado ecológico y sostenible este libro trata de la transformación que deberá experimentar y que ya experimenta el sistema monetario para encarnar dicha transición sacroeconomía ofrece una síntesis amplia que integra teoría políticas y prácticas y examina conceptos vanguardistas de la nueva economía entre ellos la moneda de interés negativo la moneda local la economía basada en los recursos las economías del obsequio y la restauración del procomún el autor charles eisenstein sopesa también las dimensiones personales de esta transición dirigiéndose a quienes aspiran a un modo de subsistencia correcto y a vivir en consonancia con sus ideales en un mundo aparentemente gobernado por el dinero recurriendo a una larga tradición de pensamiento económico convencional y no convencional sacroeconomía presenta una visión original a la vez que sensata radical a la vez que moderada una visión de creciente relevancia ante la crisis cada vez más profunda de nuestra civilización
