this book is about good government especially ethical and fair government using both theoretical methods and practical political analysis john attanasio shows how recent supreme court decisions and campaign finance regulations map onto a pernicious and growing inequality in america he puts forward a novel solution grounded in a new principle of personal autonomy looking at the transformation of wealth and political influence in america this book demonstrates that the defining campaign finance cases such as buckley v valeo and citizens united have created a new constitutional arrangement that correlates with the dramatic rise in u s wealth and income inequality since the 1970s the book goes on to show that this distorted income allocation has adversely affected demand which may be spawning american economic stagnation the solution attanasio proposes is the principle of distributive autonomy sharply contrasting it with the individualism of modern libertarian ideas which have given rise to the radical inequality that reduces rather than enhances autonomy good governance must be centrally concerned with the distribution of freedom for all if my autonomy matters so does yours valuing the autonomy of others is authentic autonomy distributive autonomy is necessary to ensure that participatory democracy retains its truly democratic elements which may be a necessary condition for long term prosperous capitalism a profound synthesis of theory and practice politics and capital is crucial to understanding the ominous political and economic problems besetting twenty first century america

in this much needed book graham dunkley challenges the oft repeated notion that free trade and global integration are the best means of development for all nations at all times an idea that has proved even more misguided in the wake of the global financial crisis by contrast dunkley reveals through a wide range of statistical analysis and case studies that at best the evidence is mixed looking systematically at issues such as trade led growth supply chains and financialization one world mania reveals the many problems that over globalization has caused often at great human cost an indispensable guide for anyone wishing to understand the shortcomings of current global economic policies

this volume examines the strategies employed by asia s leading companies to survive and prosper in the wake of profound political economic and structural changes that have taken place in the 1990s

the great financial crash had cataclysmic effects on the global economy and took conventional economists completely by surprise many leading commentators declared shortly before the crisis

that the magical recipe for eternal stability had been found less than a year later the biggest economic crisis since the great depression erupted in this explosive book steve keen one of the very few economists who anticipated the crash shows why the self declared experts were wrong and how ever rising levels of private debt make another financial crisis almost inevitable unless politicians tackle the real dynamics causing financial instability he also identifies the economies that have become the walking dead of debt and those that are next in line including australia belgium china canada and south korea a major intervention by a fearlessly iconoclastic figure this book is essential reading for anyone who wants to understand the true nature of the global economic system

the contributions to this edited volume discuss constitutional politics in 20 central and eastern european countries the country chapters describe all constitutional amendments and new constitutions after the first post communist constitution making all failed amendment attempts and the political discourses about constitutional politics framed by a broad comparative chapter the country studies are embedded in the established literature on constitutional politics the book thus provides a better understanding of constitutional politics in the region and beyond
