this book advances the theory that a potential leading export sector in this case the oil sector is capable of inducing economic growth even in peripheral countries where the product line is primary in nature in venezuela the oil sector has contributed directly and indirectly to the development of the country s overall economy particularly from 1936 to 1973 when that sector met the criteria of a leading sector i e one that expands rapidly and obtains a large specific size relative to the economy as a whole oil investment in venezuela contributed to the fiscal sector the foreign sector gdp income backward and forward linkages the multiplier and accelerator effects and the retained value of total expenditures in spite of recent efforts to diversify the production and export mix the venezuelan economy continues to remain heavily dependent on oil production for export during the midcentury decades of solid growth it became evident that government oversight was needed to ensure that the numerous contributions flowing from the oil sector would be put to good use overall it appears that the contributions were well utilized by the venezuelan government although there was plenty of room for improvement income distribution problems and other social inequities continued to beset the development process leaving the economy rigid and inflexible consequently when the oil sector faltered 1974 to 2000 venezuela was unable to shift into other product lines political disarray soon followed and with it a pervasive aura of economic uncertainty that persists to this day

this reference work chronicles and categorizes more than 23 000 union casualties at gettysburg by generals and staff and by state and unit thirteen appendices also cover information by brigade division and corps by engagements and skirmishes by state by burial at three cemeteries and by hospitals casualty transports incarceration records and civilian casualty lists are also included
