modern scientific research has changed so much since isaac newton s day it is more professional collaborative and international with more complicated equipment and a more diverse community of researchers yet the use of scientific journals to report share and store results is a thread that runs through the history of science from newton s day to ours scientific journals are now central to academic research and careers their editorial and peer review processes act as a check on new claims and findings and researchers build their careers on the list of journal articles they have published the journal that reported newton s optical experiments still exists first published in 1665 and now fully digital the philosophical transactions has carried papers by charles darwin dorothy hodgkin and stephen hawking it is now one of eleven

journals published by the royal society of london unrivalled insights from the royal society's comprehensive archives have enabled the authors to investigate more than 350 years of scientific journal publishing the editorial management business practices and financial difficulties of the philosophical transactions and its sibling proceedings reveal the meaning and purpose of journals in a changing scientific community at a time when we are surrounded by calls to reform the academic publishing system it has never been more urgent that we understand its history

this book argues that modelling should be a component of all school curricula that aspire to provide authentic science education for all the literature on modelling is reviewed and a model of modelling is proposed the conditions for the successful implementation of the model of modelling in classrooms are explored and illustrated from practical experience the roles of argumentation visualisation and analogical reasoning in successful modelling based teaching are reviewed the contribution of such teaching to both the learning of key scientific concepts and an understanding of the nature of science are established approaches to the design of curricula that facilitate the progressive grasp of the knowledge and skills entailed in modelling are outlined recognising that the approach will both represent a substantial change from the content transmission approach to science teaching and be in accordance with current best practice in science education the design of suitable approaches to teacher education are discussed finally the challenges that modelling based education pose to science education researchers advanced students of science education and curriculum design teacher educators public examiners and textbook designers are all outlined
