the revised second edition of the accessible guide to contemporary ethical issues that are at the intersection of religion and morality the updated second edition of do morals matter offers an authoritative yet approachable guide to the current ethical issues that bridge the gap between religion and morality this informed text examines today s key ethical issues that range from making moral decisions in business and medicine to the uncertainty of war and terrorism and the

tenuous condition of our environment this popular textbook embraces the dramatic changes that have occurred since the first edition was published such as changes in attitude towards the lgbt community as well as emerging ethical areas such as cyber ethics in consultation with professors the new edition includes sections at the beginning and end of each chapter that provide clear and succinct summaries of key issues as well as reflective and discussion questions this revised text sets out all the major ethical options in a balanced way inviting students to make their own mind up deals with both moral philosophy and applied ethics starts every chapter with a thought exercise to provoke discussion places brexit and president trump in an appropriate ethical framework develops the concept of a morally serious person written for students studying ethics in departments of theology and religion do morals matter is the thoroughly revised and updated edition of the text that explores contemporary ethical issues

this book focuses on ethical and methodological issues faced by researchers working with young language learners in formal school contexts it uncovers and explicitly discusses a range of ethical dilemmas challenges and experiences that researchers have encountered and grappled with in studies of all kinds from large scale experimental studies to ethnographic studies focused on just a handful of children the chapters are written by researchers working with children in different classroom contexts around the world and highlight how ethical dilemmas and tensions take on a complex form in child focused research requiring researchers to pay particular attention to the social and cultural norms of the different communities within which children are educated as well as their school based experiences the book comprises three sections with the first part focused on involving children as active participants in research part two on ethical challenges in multilingual contexts and part three on links between teacher education and researching children the book includes a critical discussion of the opportunities and challenges associated with applying the uncrc 1989 document in second language research with children which will be of use to any researcher working in this area

anthropologists often use pollution to refer to social and individual challenges to a cultural idea of purity which may be seen in terms of religious practice foodstuffs and social differentiation it has been used as a trope to explore ideas of dirt and place moral inversion and reinforcement disgust and taboo the book is an invitation to consider the continued relevance of mary douglas conceptualization of pollution and dirt as matter out of place in relation to contemporary

circumstances its ethnographic and theoretical contributions cover diverse contexts ranging from europe to africa the caribbean india and outer space

this book offers conceptual and practical guidance to social researchers and evaluators who intend to navigate the tangled and complicated terrain of values valuing and evaluating we focus on understanding how these phenomena and associated practices are at work in social research what investigators can and should do in dealing with such matters and how their actions relate to longstanding concerns about objectivity impartiality the nature and use of evidence and the purpose s of applied social research our primary aim is to help researchers become more explicit about values valuing and evaluative judgments in their practices and to refine their capacity to engage in deliberative argumentation guided by standards of reasonableness

providing an exploration of the discussion on how a stronger ethical basis for the work of environmental health practitioners efps can contribute to improved public health because efps environmental health officers ehos come into daily contact with members of the public to address threats to their health and wellbeing this book examines what is meant by professional ethics and the role of professional bodies in ensuring members of the profession act ethically they should be expected to act as guardians of the public interest without fear or favour ethics is an integral part of public health decision making and needs to be incorporated into public and environmental health policy development and decision making this work while seeking to stimulate debate within the environmental health profession will examine what this means for efps ethics and the environmental health profession the importance of being ethical explores the process of ethical decision making in the environmental health profession and asks the question of whom efps have an ethical duty towards in their work it looks at a variety of ethical issues which arise for efps working in local government as consultants or for commercial companies this book is useful for efps globally other local government officers educational establishments where environmental and public health courses are run globally elected members of local authorities and policymakers at national and local government levels

a fortnightly bulletin on financial and political trends

moral matters is a concise and accessible look at such ethical issues as euthanasia animal rights abortion and pornography it provides a focused set of views from the unified perspective of one of north america s leading libertarian thinkers and aims to provoke thought and discussion as well as to enrich understanding for the new edition the text has been revised throughout the introduction has been greatly expanded and a new chapter on environmental issues has been added

most modern philosophers attempt to solve the problem of morality from within the epistemological assumptions that define the dominant cultural perspective of our age alan gewirth s reason and morality is a major work in this ongoing enterprise gewirth develops with patience and skill what he calls a modified naturalism in which morality is derived by logic alone from the concept of action i think that the publication of reason and morality is a major event in the history of moral philosophy it develops with great power a new and exciting position in ethical naturalism no one regardless of philosophical stance can read this work without an enlargement of mind it illuminates morality and agency for all e m adams the review of metaphysics this is a fascinating

study of an apparently intractable problem gewirth has provided plenty of material for further discussion and his theory deserves serious consideration he is always aware of possible rejoinders and argues in a rigorous manner showing a firm grasp of the current state of moral and political philosophy mind

morals from motives defends its approach against criticisms that naturally occur to those skeptical of basing the morality of right and wrong action in independently admirable motives it also argues that ideally good people will in general be concerned about helping people rather than about conscientiously doing their duty but the book s largest positive aim is to show that virtue ethics isn t limited to ancient prototypes and can especially benefit from ideas deriving from eighteenth century moral sentimentalism and from recent thinking about the feminine morality of caring book jacket

knud ejler lögstrup s the ethical demand is the most original influential danish contribution to moral philosophy in this century this is the first time that the complete text has been available in english translation originally published in 1956 it has again become the subject of widespread interest in europe now read in the context of the whole of lögstrup s work the ethical demand marks a break not only with utilitarianism and with kantianism but also with kierkegaard s christian existentialism and with all forms of subjectivism yet lögstrup s project is not destructive rather it is a presentation of an alternative understanding of interpersonal life the ethical demand presupposes that all interaction between human beings involves a basic trust its content cannot be derived from any rule for lögstrup there is not christian morality and secular morality there is only human morality

in this fresh and powerfully argued book mark bernstein identifies the qualities that make an entity deserving of moral consideration it is frequently assumed that only normal human beings count bernstein argues instead for experientialism the view that having conscious experiences is necessary and sufficient for moral standing he demonstrates that this position requires us to include many non human animals in our moral realm but not to the extent that many deep ecologists champion

interest in schopenhauer has increased noticeably in recent years published here is one of his key

works which has been out of print for a long time in the form of payne s definitive translation this work is one of the most significant nineteenth century treatises on ethics it is also schopenhauer s most extended discussion of traditional themes in ethics and presents a descriptive ethics radically at odds with rationally based prescriptive ethical theories schopenhauer begins this book with a wide ranging critique of kant s ethics one that anticipates the work of contemporary critics of modern moral philosophy like that of g e m anscombe philippa foot and richard taylor schopenhauer argues that compassion is the basis of morality and in so doing presents a virtue ethics in which passion and desire are viewed as the keys for explaining different moral characters behaviours and world views in the concluding part of his essay schopenhauer sketches his metaphysics of morals using kant s transcendental idealism as a ground for stressing both the interconnectiveness of being and the affinity of his ethics to eastern thought

mary anne warren explores a theoretical question which lies at the heart of practical ethics what are the criteria for having moral status in other words what are the criteria for being an entity towards which people have moral obligations some philosophers maintain that there is one intrinsic property for instance life sentience humanity or moral agency others believe that relational properties such as belonging to a human community are more important in part i of the book warren argues that no single property can serve as the sole criterion for moral status instead life sentience moral agency and social and biotic relationships are all relevant each in a different way she presents seven basic principles each focusing on a property that can in combination with others legitimately affect an agent s moral obligations towards entities of a given type in part ii these principles are applied in an examination of three controversial ethical issues voluntary euthanasia abortion

contemporary moral and social issues is a uniquely entertaining introduction that brings ethical thought to life it makes innovative use of engaging topically oriented original short fiction together with classic and influential readings and editorial discussion as a means of helping students think philosophically about ethical theory and practical ethical problems introduces students to ethical theory and a range of practical moral issues through a combination of key primary texts clear editorial commentary and engaging original fiction includes discussion of topics such as world poverty abortion animals the environment and genetic engineering containing facts and factual issues for each topic to give students an up to date understanding of related factual issues uses

immersive original short works of fiction as a means to engage students to think philosophically about serious ethical issues sample course framework available

the central issue is that of identifying and understanding the fundamental principles of morality but the book also discusses the place of rules in moral thought the nature of obligation the relation between morality and religion and that of being moral and rational

ideal for courses in contemporary moral problems applied ethics and introduction to ethics disputed moral issues a reader fifth edition offers a unique pedagogical approach that bridges moral theory and applied ethics bringing together sixty eight engaging articles it also includes an accessible moral theory primer chapter 1 each selection is enhanced by a host of pedagogical features including concise summaries reader cues referring to pertinent moral theories and reading and discussion questions a quick guide to moral theories at the front of the book and an extensive glossary of key terms are also included a user s guide which follows the preface shows instructors how they can integrate moral theories and applied ethics into their courses
