generations of west indian migrants have long called central america home the descendants of these creole english speakers live in communal enclaves along the caribbean coast of central america where their creole heritage and language are in contact zones with spanish language and culture when creoles and spanish collide language and culture in the caribbean presents contemporary insight into these intra caribbean diasporic communities on how they grapple with evolving creole identity and representation language contact language endangerment and linguistic discrimination communal resilience oftentimes manifests itself via linguistic innovation and creativity editors glenda alicia leung and miki loschky showcase the scholarship of emerging and established regional and transatlantic scholars in when creoles and spanish collide which serves as a decolonizing research space

this collection considers the accordion and its myriad forms from the concertina button accordion and piano accordion familiar in european and north american music to the exotic sounding south american bandoneon and the sanfoninha capturing the instrument s spread and adaptation to many different cultures in north and south america contributors illuminate how the accordion factored

into power struggles over aesthetic values between elites and working class people who often were members of immigrant and or marginalized ethnic communities specific histories and cultural contexts discussed include the accordion in brazil argentine tango accordion traditions in colombia cross border accordion culture between mexico and texas cajun and creole identity working class culture near lake superior the virtuoso italian american and klezmer accordions native american dance music and american avant garde

it is widely recognized that the development of aquaculture in the wider caribbean region is inhibited in part by the lack of technical expertise infrastructure capital investment and human resources furthermore seed supply for native species relies for the most part on natural collection subject to natural population abundance with wide yearly variations this situation has led to the current trend of culturing more readily available exotic species but with a potentially undesirable impact on the natural environment the centralizing of resources available in the region into a shared facility has been recommended by several expert meetings over the past 20 years the establishment of a regional hatchery facility supporting sustainable aquaculture through the seed production of native molluscan species was discussed at the fao workshop regional shellfish hatchery a feasibility study held in new kingston jamaica in october 2010 by representatives of caribbean governments and experts in the field molluscan species are particularly targeted due to their culture potential in terms of known techniques simple grow out technology and low impact on surrounding environment it is proposed that a regional molluscan hatchery would produce seed for sale and distribution to grow out operations in the region as well as provide technical support for the research on new species the current document summarizes the findings of the workshop and outlines four follow up recommendations on steps required for the successful implementation of a regional facility the positive response of participating caribbean governments demonstrates the current political will for sustainable aquaculture growth in the region supported by several national plans including the caribbean regional fisheries mechanism strategic plan page 4 of cover

this valuable work published in september 2000 provides a comprehensive review of the environmental condition of the seas of the world sea by sea and region by region it focuses on all aspects of man s interactions with the seas and with their biological and physical systems the three volumes of seas at the millennium an environmental evaluation cover issues of global and regional importance such as biological description of the coast and continental shelf waters development and use of the coast landfill and its effects pollutant discharges over time effects of over fishing management methods and techniques used to ensure continued ecosystem functioning the relative importance of water borne and airborne routes differ in different parts of the world so routes and paths of pollutant movement in different areas will be examined and described in their local and global context each chapter is written by experts in the field the regional chapters include an historical overview of the area concerned in environmental terms uses to which it has been put and to which it is put today its current environmental status and major problems arising from human use of both the sea and its watershed informed comment on major trends problems and successes and recommendations for the future the global issues chapters cover major habitats and species groups governmental education and legal issues fisheries effects remote sensing climate change and management

between 1810 and 1825 nearly 7 000 british and irish mercenaries sailed to gran colombia to fight against spanish colonial rule under the rebel forces of simon bolivar their motives were mixed some travelled for money others travelled for honour adventuring through spanish colonics explores the lives of these men their encounters with other soldiers indigenous people local women and slaves as recounted in documents that fall outside the usual remit of military political and economic history matthew brown considers the social and cultural aspects of the presence of these foreigners and shows how they were an essential part of the revolution which eventually gave south america its freedom using archival research from england scotland ireland spain ecuador venezuela and colombia adventuring through spanish colonies clearly shows the active role that these mercenaries informal outriders of the british empire played in the creation of latin america as we know it today
