please note this is a companion version not the original book sample book insights 1 the nazi international had a comprehensive coordinated agenda with long range goals it intended to exercise significant influence over the fields of exotic physics and technologies space economics and global finance and the exploitation of conflict 2 the grand design of nazi party reichsleiter martin bormann was to transform national socialism into international fascism and to infiltrate and eventually control key areas of the very nations that had defeated the third reich 3 the book is about a conspiracy theory or perhaps better said a hypothesis it remains for the reader to judge if it is a plausible and reasonable one the book does not attempt to construct some sort of grand unified conspiracy theory of modern history but rather proposes an extensive but still limited hypothesis to explain events that cannot be explained by other hypotheses
