how the tropes of science fiction infuse and inform avant garde poetics and many other kindred arts this insightful playful monograph from golston does exactly what it advertises modeling poetics based on how poetry and some parallel artistic endeavors has filtered through a century plus of science fiction this is not a book about science fiction in and of itself but it is a book about the resonances of science fiction tropes and ideas in poetic language the germ of golston's project is a throwaway line in robert smithson's entropy and the new monuments about how cinema supplanted nature as inspiration for many of his fellow artists the movies give a ritual pattern to the lives of many artists and this induces a kind of low budget mysticism which keeps them in a perpetual trance golston charts how the demotic appeal of sci fi much like that of the b movie cross pollinated into poetry and other branches of the avant garde golston creates what he calls a regular rube goldberg machine of a critical apparatus drawing on walter benjamin roman jakobson and gilles deleuze he starts by acknowledging that per the important work of darko suvin to situate science fiction critically the genre is premised on cognitive estrangement but he is not interested in the specific nuts and bolts of science fiction as it exists but rather how science fiction has created a model not only for other poets

but also for musicians and landscape artists golston s critical lens moves around quite a bit but he begins with familiar enough subjects edgar rice burroughs mina loy william s burroughs from there he moves into more alien terrain ed dorn s long poem gunslinger the discombobulated work of clark coolidge sun ra ornette coleman and jimi hendrix all come under consideration the result of golston s restless rich scholarship is the first substantial monograph on science fiction and avant garde poetics using russian formalism frankfurt school dialectics and deleuzian theory to show how the avant garde inherently follows the parameters of sci fi in both theme and form

in this pioneering study robin lydenberg focuses upon the stylistic accomplishments of this controversial and experimental writer in doing so she skillfully demonstrates that the ideas we now recognize as characteristic of post structuralism and deconstruction were being developed independently by burroughs long ago

william s burroughs is one of the twentieth century s most visible controversial and baffling literary figures in the first comprehensive study of the writer timothy s murphy places burroughs in the company of the most significant intellectual minds of our time in doing so he gives us an immensely readable and convincing account of a man whose achievements continue to have a major influence on american art and culture murphy draws on the work of such philosophers as gilles deleuze félix guattari theodor adorno and jean paul sartre and also investigates the historical contexts from which burroughs s writings arose from the paranoid isolationism of the cold war through the countercultural activism of the sixties to the resurgence of corporate and state control in the eighties burroughs s novels films and music hold a mirror to the american psyche murphy coins the term amodernism as a way to describe burroughs s contested relationship to the canon while acknowledging the writer s explicit desire for a destruction of such systems of classification despite the popular mythology that surrounds burroughs his work has been largely excluded from the academy of american letters finally here is a book that presents a solid portrait of a major artistic innovator a writer who combines aesthetics and politics and who can perform as anthropologist social goad or media icon all with consummate skill

provides poets with information on more than one thousand commercial and literary markets for their work details of payments and submission guidelines interviews with poets publishers and editors

these four volumes cover 791 books or series 238 of them published during the 1980s and 1990s the entries are 1 000 words long for single books and 1 500 for series with a one sentence summary beginning each entry followed by bibliographical information volume 4 contains an extensive bibliography of critical works on science fiction and fantasy a list of major award winners a genre index booklist
