scholarly evidence indicates that almost fifty percent of people who commence higher education delay completing their studies and other dropouts most governments have introduced a policy that requires students to complete their studies within a limited time especially the research students master's and doctoral degree students the implementation of the policy has also caused tension in higher education students learning and

supervision academics have debated and written about the problem widely and it is no longer a discreet encounter for higher education stakeholders despite the scholarly effort of disclosing the challenges depth no literature has adequately supported students to implement the policy effectively and successfully this book attempts to fill the gap by guiding higher education students on observing ten major principles for timely and successful completion if students perceive learn and practice the guidance in this book they will attain their degree anywhere in a physical setting online home and abroad worldwide the principles might be useful in the orientation programs for first year students in universities and colleges first students ought to comprehend factors that might contribute to the delay completion and dropout second they must analyze and communicate their needs and requirements from the beginning of their enrolment while re examining their association networking self management and self leadership the book also reminds higher education students to build healthy habits to support developing cognitive affective and psychomotor domains and remain active and creative four categories of students personalities are discussed to urge students to evaluate who they are and whether they are problem solvers informers implementers or workforce to society the understanding can support them chose the projects that align with what they are to society self awareness and leadership may make the learning task more manageable enjoyable and meaningful and filling the knowledge gap can be realized timely

the public outcry for a return to moral education in our schools has raised more dust than it s dispelled building upon his provocative ideas in on becoming responsible michael pritchard clears the air with a sensible plan for promoting our children s moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another s ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truthtelling lying making and keeping promises obedience character and responsibility he also links such discussions to

fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers the result is a rich and insightful work that provides real hope for the future of our children and their moral education
