the title of this book is a bold statement and one cannot really state this unless you put your money where your mouth is i have written many books around uk horse racing systems and this one i really enjoyed due to the simplicity of this horse racing system and how easy it is to apply the system uses the excellent free racing post website where you can obtain all the form data you need to use this system plus you do not have to be a form expert to understand it i personally think horse racing pundits make heavy weather of horse racing form i e looking at a horse s breeding and many other factors i think this information just confuses the average punter i have added a special bonus horse laying system in this book

and i think you will enjoy it this laying system is so easy to follow you will look back at all the bets you have placed in the past and wonder how did i get it so wrong yes it will hurt knowing how much money you lost when you should have not moving back onto the horse backing system picking winners will be very easy for you and even more you will gain confidence and control in your betting this horse racing system normally picks 2 to 3 horses per day in uk handicap horse racing markets you should aim at using betfair to place your bets due to the better prices and in play tactic i will show you in this book understand the system before placing bets i hope you enjoy it

this book is a large print format paperback using an 18 pt arial font sports wagering and horse race betting are made easier with systems this book contains some of the best sports betting systems from ken osterman these are systems that he has used himself successfully at both racetracks and sports books the rules for each system are clearly explained and the systems are explained clearly so it is understood why they work tips for improving these systems are also provided there are 10 systems in this book that cover horse racing football and baseball here is a list of the systems with the sport that is covered and the title of the system horse racing quarter horse the hidden speed horse angle thoroughbred best jockey long shot method thoroughbred bet the fastest horse thoroughbred show a profit down under harness the qualifier advantage harness morning line overlay sports betting nfl football the injured star nfl football the hat trick baseball the aaa surprise baseball the underdog advantage

sha tin horse racing betting system sha tin race course i have never been there this was a new journey for me and one i wanted to achieve i am fascinated by sha tin horse racing betting systems that produce big priced winners or as they are often referred to as longshot horses i do not mean travelling there i mean modelling developing and documenting a horse racing system for sha tin i am absolutely fascinated by hong kong racing and love the top class jockeys who ride there i will explain about this system in more detail later but this will be completely different from my other uk systems which are multi faceted so what do i mean multi faceted well horse racing form can be viewed in multiple ways and this system was a serious challenge and a very large challenge indeed all of this was a steep learning curve and i hope you like it developing a sha tin system gave me a headache in fact it frustrated the hell out of me as i could not join up the dots i tried to encapsulate the data and metrics with regards to horse racing form betting odds and jockey positional tactics this system had one approach as it was one race track but with two courses and a small number of tweaks to address this the book contains 3 approaches to picking winners at the brilliant sha tin horse racing track this is a must read the wonders of sha tin horse racing i cannot believe i became obsessed with sha tin flat racing as i was a cheltenham festival addict where the top national hunt horses competed for the top prizes this was my passion for 20 years then my love affair with jump racing diminished and i moved over to uk flat horse racing and even better all weather racing another great love so what attracted me to sha tin read my book

a quote i love horse racing betting systems i repeat this quote in many of my books sorry for being boring i have to cover this early in the book as i believe this is probably overlooked by most punters who continue to lose every day please look at the quote below and ponder on this for 5 minutes and ask yourself a question do you actually do this we are looking for a winner in a race not the winner of a race remember the above quote as most punters fail to

understand this quote and this is why they lose money most punters look at the race cards looking for the winner of the race they should be looking for the winner in a race you have to be confident you have spotted a potential winner in a race not of a race you have to be prepared not to have a bet on days when there are no winners in a race remember this chapter it will serve you well non handicap horse races most of my uk horse racing system books have centered around uk handicap horse races this system focuses on non uk handicap races i will explain why i opted for these types of races in handicap races horses are allotted weight in relation to their ability so the best horses are allocated more weight so as to give the inferior horses in the race a chance of winning it is that simple weight is a leveller it slows horses down but it is not that simple as horses can be cleverly placed in races i won t say much more on this but i think you get the point in non handicap uk races it is easier to assess horse form as we do not have to worry about the weight allotted to a horse it s always difficult picking winners for handicap and non handicap races so we must not get complacent let us now look at this brilliant uk horse racing system

i graduated from university with a computer science degree many years ago when a degree meant something i was always interested in horse racing and was fascinated in solving the uk horse racing form puzzle i started my own computer business in my early 20 s where i made good money and travelled across europe it was at this point in my life i decided to start a horse tipping business where i had weekly full page colour adverts in the racing post at 2k per advert and offices i left the running of this horse tipping business to staff who were responsible for all parts of the business while i concentrated on my computer business in my late 30 s around 1990 i decided to use my computer skills to computerise and model uk horse racing form using a database built with 10 years of detailed horse racing form it was over a period of 2 years that i concentrated my efforts on uk handicap races in conjunction with the betting exchange betfair this is where i believed maximum profit could be gained the computer model allowed me to process 100 s of handicap races per day and then formulate my system tweaking a horse s weight and bhb or or official rating i must confess this was a difficult puzzle to crack even with a computer program that i wrote to crunch the data i eventually found the correct weight and bhb rating for a horse based on it s last performances in handicap races this ebook outlines this system and can be manually applied easily using the racing post on the internet

there are gamblers who beat the bookmakers regularly they are few and far between because they need strong self discipline there are many more gamblers who don t want the restraint of such discipline they want good systems that give them the advantage but equally allows them to bet more often this book features test systems that work and win

i have written many books about uk horse racing betting systems e g horse laying in 6f 7f races horse dutching to 35 book large betfair place market decimal odds betting systems and many more i have been able to do this as i have modelled these horse racing betting systems on my own database using my own computer code i am fortunate i have i t background and have computer science degree which has helped me a great deal in my quest for the perfect horse racing systems this book is different as i feel that this horse racing betting system helps punters see the light when selecting horses for a bet the system is so simple to follow that punters who have busy lives can apply this system very quickly and accurately the system uses the free racing post on the internet so there are no further costs the book is priced to refelect seeing the light many punters are in the dark

introductioni have written a number of racing systems but this is the best one and i use this for most of my racing bets the key to this system is quality not quantity and looking for horses that tick all the four form variables lp or cr wd which i will explain later the system also only looks for horses that are carrying 8 pounds or more in weight which normally means a class drop or the horse has improved understand the system before placing bets i hope you enjoy it

a simple to operate horse racing system that looks at the morning market movers allying this information to the horses form selections are found in minutes each day simply using the data form a free internet website also using the expert advice of the racing spotlight or as an alternative free racing websites from an average of about three bets per day the system has produced fantastic monthly profits of 20 points taken over a period of 6 years
