seminar paper from the year 2017 in the subject leadership and human resource war for talents grade 2 university of applied sciences düsseldorf

language english abstract this work defines finding talents as one of the top priorities of human resource management and reviews the practices strategies and plans that can be implemented in order to attract and retain talented employees it shows the external and internal channels by which the organizations can acquire the needed talents at the end it reviews the challenges facing human resource managers in this framework finding the superior talent is the key issue for human resource managers across the world this issue is being faced by large organizations since the business environment is changing rapidly and the need for technological skills professionals and the ability to operate under different conditions is growing fast according to mckinsey in addition to skills knowledge experience astute character and judgment talent also includes the person s ability to learn and grow the so called war for talent was expressed by the america s largest management consulting firm in 1998 when they published a report stating that better talent is worth fighting for the gap between the demand and supply of talented people represents the scarcity of talents which form a challenge for the human resource managers that brings us to the question what practices plans and strategies should be set and implemented by the human resource managers in order to attract and retain talented people and what are the challenges facing human resource managers in finding the required talents for the organization

a personal provocative and challenging book for career women who want less guilt more life diane sawyer womenomics the groundbreaking new york times bestseller by claire shipman and katty kay is an invaluable guide for this generation of professional women provide knowledgeable advice on how to work less achieve more live better shipman and kay two tv journalists well acquainted with the stress of the workplace describe the new economic trends that offer today s overworked working women more professional and personal choices than ever before at last you no longer have to do it all to have it all womenomics shows you how

master s thesis from the year 2014 in the subject leadership and human resources miscellaneous university of plymouth language english abstract this study provides an investigation on talent management in german mid sized enterprises the purpose of this research is to explore whether talent management is an instrument usable to overcome external challenges such as demographic changes as well as a shortage in skilled labour to enhance organisational performance and to remain competitive the research determines that talent management can be seen as a part of strategic human resources management and in this context as a high performance working system in order to develop motivate and empower talented employees since empirical data in the national context of germany are restricted on the one hand and on the other hand research efforts regarding talent management in small and medium sized enterprises are of less significance qualitative research methods were used in order to gather deeper insights three in depth expert interviews were conducted providing valuable information regarding the conceptualisation and

operationalisation of talent management in the context of german mid sized enterprises the findings reveal that what is of strong importance within small and medium sized enterprises in general is the expansion of the term talent to all employees and their skills and abilities instead of seeking for high potentials and so called a players furthermore three significant characteristics of german companies being long term and developmentally orientated as well as providing dual vocational training to potential future employees have been identified these qualities underlie the highly specialised industries in which german medium sized enterprises operate skilled labour and development of these is of high importance overall the dissertation concludes that talent management is recognised and implemented as an instrument of strategic human resources management within german medium sized enterprises special focus is put on investment in the human capital as the development and retention of potential is of strong importance however due to limited financial budgets and less recognition of line managers talent management stands in its infancy the research recommends further studies in order to investigate the findings and limitations of this dissertation such as the empirically undetected field of talent management as a high performing system in national context or within small and medium sized enterprises

diploma thesis from the year 2003 in the subject business economics business management corporate governance grade sehr gut university of applied sciences kufstein tirol international business studies language english abstract on the turn from an industrial to a knowledge based economy the rules of economic geography have changed significantly human capital and a high quality of life which attracts it have become the most important factors for urban economic growth the goal of the study was to find out whether there is evidence for the hypothesis that european cities with a high quality of life are more innovative the reasoning is that a nice living environment attracts educated people which in the next step lures knowledge based companies and stirs innovative activity the results of the statistical analysis carried out by the author prove the hypothesis that quality of life and innovativeness are connected specifically a good environmental quality directly supports the production of scientific articles together with a high educated labor force it also attracts innovative high tech companies which increase the production of patents an overall high quality of life and a high income level attract educated people and increase the knowledge base of a city however a city does not necessarily have to be rich in monetary resources to achieve a good innovative performance in fact the quality of life predicts the innovativeness of european cities better than the income level despite these findings the author also found evidence that a good environmental condition as well as learning effects through industry agglomeration increase the efficiency of knowledge workers cities that are home to a big number of high tech companies and offer a nice environment produce considerably more patents per invested r d money than other cities the results of the study suggest that city officials should turn away from attracting high tech companies by mo
