from pre science to science the origin of mathematics the roots of physics and chemistry and the urge to experiment are there limits to what science can know understanding organisms goethe's method the quest for archetypal phenomena light darkness and colour the rediscovery of the elements what is warmth the scale of nature the working of the ethers in the physical sub nature what are atoms natural science and spiritual science

what is object relations theory and what does it have to do with literary studies how can freud s phallocentric theories be applied by feminist critics in psychoanalysis and gender an introductory reader rosalind minsky answers these questions and more offering students a clear straightforward overview without ever losing them in jargon in the first section minsky outlines the fundamentals of the theory introducing the key thinkers and providing clear commentary in the second section the theory is demonstrated by an anthology of seminal essays which includes femininity by sigmund freud envy and gratitude by melanie klein an extract from transitional objects and transitional phenomena by donald winnicott the meaning of the phallus by jacques lacan an extract from women s time by julia kristeva an extract from speculum of the other woman by luce irigaray

introducing christian ethics 2e now thoroughly revised and updated offers an unparalleled introduction to the study of christian ethics mapping and exploring all the major ethical approaches and offering thoughtful insights into the complex moral challenges facing people today this highly successful text has been thoughtfully updated based on considerable feedback to include increased material on catholic perspectives further case studies and the augmented use of introductions and summaries uniquely redefines the field of christian ethics along three strands universal ethics for anyone subversive ethics for the excluded and ecclesial ethics for the church encompasses christian ethics in its entirety offering students a substantial overview by re mapping the field and exploring the differences in various ethical approaches provides a successful balance between description analysis and critique structured so that it can be used alongside a companion volume christian ethics an introductory reader which further illustrates and amplifies the diversity of material and arguments explored here

reference book comprising a bibliography aiming to bring together secondary source interdisciplinary material on labour relations in the uk between the years 1880 and 1970 covers employees attitudes trade unions and employees associations employers organizations the labour market and working conditions etc

this edited collection is about the application of english grammar and specialises in functional and corpus approaches approaches which are increasingly recognised as providing significant insights into english language in action it aims to stimulate interest and understanding of grammar as an applied tool not just for grammarians or language learners but for all those interested in how language is organized to shape our view of events in the world as the chapters in this book show functional and corpus approaches allow us to make observations that would not be amenable through more traditional forms of grammatical analysis they also illustrate how researchers can fruitfully bring together corpus and functional approaches to reveal how grammar and lexis create and transmit values identities and ideologies research in critical discourse analysis cda has a long tradition of drawing on functional grammar but has only relatively recently begun to draw on corpus linguistics as such the book is unusual in presenting work on cda which draws on corpus linguistics but not only that it is also unique in presenting work in cda which brings together the methodologies of corpus linguistics and

functional grammar demonstrating their combined potential for illuminating ideological perspectives particularly in media texts given this focus and given the increasing value of empirical data the book will be of interest to those in a range of disciplines including the humanities and media and cultural studies chapters comprise both newly commissioned and previously published works that illustrate the two methodological approaches to grammatical analysis and how they can be applied to deepen our understanding of language

language planning is a resurgent academic discipline reflecting the importance of language in issues of migration globalisation cultural diversity nation building education and ethnic identity written as an advanced introduction this book engages with all these themes but focuses specifically on language planning as it relates to education addressing such issues as bilingualism and the education of linguistic minority pupils in north america and europe the educational and equity implications of the global spread of english and the choice of media of instruction in post colonial societies contextualising this discussion the first two chapters describe the emergence and evolution of language planning as an academic discipline and introduce key concepts in the practice of language planning the book is wide ranging in its coverage with detailed discussion of the context of language policy in a variety of countries and communities across north america europe africa and asia
