a compact business education that strategically incorporates 500 keywords to lay the foundation and over 50 action items to initiate meaningful advances and excel in your eye care practice today medical training is a difficult journey with enormous amounts of information to absorb over a short time period the intense time commitment required during this process leaves little opportunity to study any other discipline however even the most intelligent and well intentioned provider cannot care for patients if the front door of the building is closed simply put a fundamental background in business is required to effectively practice medicine eye care professionals which includes their ophthalmic staff can now fill the critical gap in their education with essential business fundamentals for the successful eye care practice providing them the necessary basic tools to make and execute winning practice management decisions writing in a high density format that medical professionals will be familiar with dr savak teymoorian combines his physician training and experience as a successful ophthalmologist at harvard eye associates with the knowledge acquired earning his mba this unique perspective allows him to provide the proper theory and execution in the business of eye care and present it in an efficient manner like that used in medical education each chapter is dedicated to a different subject that would routinely be taught in a masters of business administration degree tailored specifically for eye care professionals and distilled into the most critical information for a strong foundation each section is further enhanced with real life examples seen in ophthalmic care showing how to properly apply business strategies and tactics to obtain the best results chapter topics include marketing leadership negotiations operations finance ophthalmologists optometrists and eye care staff will appreciate essential business fundamentals for the successful eye care practice for its efficient and relevant information to running an eye care practice whether they are currently in training and want to set themselves up for success or they are already practicing and want to fill in a deficiency in their knowledge

there are many books written for the accounting and finance community however there are very few books written to help the non financial career professionals who still need to understand the conceptual fundamentals of accounting and finance in 20 years of teaching this material to non financial professionals dr bonner has perfected a teaching approach that works to help the non financial professional engage with the material to use financial information in leveraging their career without becoming

overloaded with information that is not helpful to them learning this material takes repetition application and building the thinking processes necessary for effectiveness many think the challenge with finance is the math but as this book will demonstrate it is a conceptual problem if you understand the conceptual framework you will understand the math dr julie bonner is currently a tenured professor at central washington university in the information technology and administrative management department her career has spanned business and education for over 30 years initially she received a bachelor of science degree in accounting whereafter she earned an mba and then a doctorate in organizational leadership

this book offers a fresh perspective on development economics specifically tailored to the unique challenges and opportunities facing developing economies drawing on the historical experiences of now developed nations it explores how emerging economies particularly in africa can finance their development reduce reliance on external aid modernise infrastructure and alleviate poverty the book emphasizes the crucial interplay between development economics and finance advocating for a synergistic approach to achieve efficient and effective growth recognising the increasingly multidisciplinary nature of modern research it champions a hybrid approach that merges economic and financial perspectives fostering a more comprehensive understanding of development challenges this book s unique contribution lies in its integrated presentation of development economics and finance within a single cohesive framework by bridging these two critical fields it provides valuable insights into contemporary research trends and their practical applications across diverse disciplines and global contexts more than just a textbook it serves as a catalyst for debate on multidisciplinary approaches to development equipping students and practitioners with the knowledge and tools to navigate the complexities of economic growth in the developing world

in this book the author draws from finance psychology economics and other disciplines in business and the social sciences recognising that personal finance and investments are subjects of study in their own right rather than merely branches of another discipline considerable attention is given to topics which are either ignored or given very little attention in other texts these include the psychology of investment decision making stock market bubbles and crashes property investment the use of derivatives in investment management regulation of investments business more traditional subject areas are also thoroughly covered including investment analysis portfolio management capital market theory market efficiency international investing bond markets institutional investments option pricing macroeconomics the interpretation of company accounts packed with over one hundred exercises examples and exhibits and a helpful glossary of key terms this book helps readers grasp the relevant principles of money management it avoids non essential mathematics and provides a novel new approach to the study of personal finance and investments this book will be essential for students and researchers engaged with personal finance investments behavioural finance financial derivatives and financial economics this book also comes with a supporting website that includes two updated chapters a new article featuring a behavioural model of the dot com further exercises a full glossary and a regularly updated blog from the author

this book is no ordinary personal finance book it presents in a highly accessible way how to effectively understand and manage personal finances avoiding debt and building for the future and using straightforward tools and techniques developed in conjunction with business economics fun to read the book teaches core corporate finance principles in a way that helps people become more financially literate in their personal lives the premise of this book that personal and corporate finance can and

should be learned together to improve financial wellness and know how is considered a breakthrough using approaches that have been tried tested and proven to work with individuals and employees the authors apply common business activities like due diligence and tools such as financial statement analysis to personal finance this connection has not been presented before either theoretically or practically and yet it has the power to both transform how individuals successfully manage their own finances and at the same time informs and educates them in the important aspects of the financial direction of the organisations in which they work this is a must have book for those who are looking for a credible reference tool in how to effectively manage their own finances and for organisations seeking to assist their employees in good financial management at every level both in work and at home

once there was a golden age of american thrift when citizens lived sensibly within their means and worked hard to stay out of debt the growing availability of credit in this century however has brought those days to an end undermining traditional moral virtues such as prudence diligence and the delay of gratification while encouraging reckless consumerism or so we commonly believe in this engaging and thought provoking book lendol calder shows that this conception of the past is in fact a myth calder presents the first book length social and cultural history of the rise of consumer credit in america he focuses on the years between 1890 and 1940 when the legal institutional and moral bases of today s consumer credit were established and in an epilogue takes the story up to the present he draws on a wide variety of sources including personal diaries and letters government and business records newspapers advertisements movies and the words of such figures as benjamin franklin mark twain and p t barnum to show that debt has always been with us he vigorously challenges the idea that consumer credit has eroded traditional values instead he argues monthly payments have imposed strict externally reinforced disciplines on consumers making the culture of consumption less a playground for hedonists than an extension of what max weber called the iron cage of disciplined rationality and hard work throughout calder keeps in clear view the human face of credit relations he re creates the dickensian world of nineteenth century pawnbrokers takes us into the dingy backstairs offices of loan sharks into small town shops and new york department stores and explains who resorted to which types of credit and why he also traces the evolving moral status of consumer credit showing how it changed from a widespread but morally dubious practice into an almost universal and generally accepted practice by world war ii combining clear rigorous arguments with a colorful narrative style financing the american dream will attract a wide range of academic and general readers and change how we understand one of the most important and overlooked aspects of american social and economic life
